

TONNELLERIE  
BERGER & Fils

## A HIGHLY SKILLED TEAM

In constant search of excellence while respecting the paths of tradition and pursuing innovation.

Our qualified team, centered around master coopers, is the essence of our identity and our know how. **Perpetuating traditional arts and old techniques, while relying on new technology,** we produce very unique barrels.

We implement French know how, gained from years of experience within our cooperage, and by collaborating with the most prestigious estates.

From aging to wood selection, toasting levels to finishing touches, we are able to adapt our production process to respond to individual needs and therefore **maintain optimal relationship between oak and wine.**

We guarantee custom-made barrels for each wine.

## EXPERTISE BASED ON SHARED KNOWLEDGE

Since its creation, the Tonnellerie Berger & Fils has established collaborations with leading Châteaux in Bordeaux to perfect its knowledge and respond to specific requirements.

Technical meetings and tastings with winemakers dictate the selection of wood and its toasting to guarantee the optimal respect of each wine. These choices can be done thanks to the wood we dry and control ourselves at the production site for up to 36 months. We guarantee full traceability of each and every batch and a quality control is done on every single barrel produced at the cooperage.

## AN INNOVATIVE SERVICE AND A PERSONNALISED OFFER

Starting with collaborative brainstorming, **we create an expert approach to your wine.** Our artisanal structure allows us to adapt and to provide each winemaker appropriate aging solutions that respect the individual wine profile. In this approach, we offer high-quality barrels of different capacities (112 L to 500 L) and types (export, Bordeaux, Burgundy), **with the possibility of precisely defining the characteristics depending on the desired goal.**

From the seasoning time to the wood selection, and toasting to finishing touches, we are here to assist you in all your decisions.

## A STORY AT THE HEART OF THE MÉDOC REGION

Founded in 1954 by the Berger family, historically located in S' Estèphe and subsequently relocated to Vertheuil, The Tonnellerie Berger & Fils has always been at the heart of Médoc vineyards. Handed down from generation to generation, the Tonnellerie Berger & Fils integrated the TFF group, the world leader in wood craft, in June 2014.

*« We have absolute confidence in the origin of the oak used, the follow-up and the care given to the barrels. »*

Eric Tourbier, Technical Director  
of Château Mouton Rothschild

*« Château Margaux has ordered Berger barrels for more than 30 years. I love the marriage of wood and wine coupled with the quality of the toasting and the barrel preparation. »*

Philippe Berrier, Cellar Master  
of Château Margaux

*« Berger barrels bring freshness while preserving the fruit, and structure the wine in line with our long aging process. »*

Hélène Génin, Technical  
Director of Château Latour
